

Easy 312 56 Add to List Share

Example 1:

Explanation: For the given array, $\text{arr}[0] = -10$, $\text{arr}[1] = -5$, $\text{arr}[2] = 0$, $\text{arr}[3] = 3$, thus the output is 3.

Explanation: `arr[0] = 0`, thus the output is 0.

Explanation: There is no such i that $arr[i] == i$, thus the output is -1.

- $1 \leq \text{arr.length} \leq 10^4$
- $-10^9 \leq \text{arr}[i] \leq 10^9$
